Hi! Welcome to Logicolor!

Logicolor is a logic puzzle game where you place colors on a board according to the clues given.

Below are the clues used in the game and the valid locations of the colors in the clue.
Example: MUSTARD is <u>touching</u> CORAL
MUSTARD's location =

CORAL's valid locations =
CORAL's invalid locations =

<u>Touching</u>

<u>Corner</u>

In same row as
In same column as

Adjacent to

Diagonal to

These clues aren't used often, but they are good to know if they ever come up.
